

# Power BI Accelerator

Gain powerful business insight with compelling visualizations in just two weeks.

## YOUR CHALLENGES AND OPPORTUNITIES

Are you looking to gain insight into your business that you've never had before? Are you struggling with enabling self-service reporting? Does your enterprise own multiple analysis tools which are too costly to distribute to all users? Are these tools providing only some of the functionality you need? With PowerBI and Office 365, robust reporting capabilities across multiple systems can be made available to a much larger audience at a much lower cost.

## OUR SOLUTION

BlueMetal's two-week Power BI Accelerator will show you how your two-dimensional reporting can become 3-D visualizations with overlays over massive amounts of data. We can explore the potential of Power BI as it aligns to your existing environment and specific needs. In two weeks, we will define the design, architecture, and strategy to address the challenge at hand, and substantially reduce your risk in the development phase. We will partner with your team to deliver a compelling proof of concept with a craftsmanship and quality that is unique in the industry.

BlueMetal Power BI Accelerator	
Engagement	10 days: <ul style="list-style-type: none"> <li>1 Day Requirements Scoping</li> <li>1 Day Validation of Data Environment</li> <li>½ Day Data Cleanse</li> <li>2 Days Data Modeling</li> <li>½ Day Initial Visualization</li> <li>4 Days Iterative refinement of visualization / reporting</li> <li>1 Day Debrief</li> </ul>
Deliverable	Proof of Concept that delivers one of the following: <ul style="list-style-type: none"> <li>- A defined data model that can be re-used across the organization</li> <li>- A customized POC-grade visualization</li> </ul>
